TWELVE O'CLOCK M.

FORTIETH CONGRESS.

Re-assembling of Both Houses—Further Recess Until October 16th.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, Sept. 21, 1868.

SENATE.

The Senate was called to order at twelve o'clock.

Prayer by Rev. Dr. Gray.

The reading of the journal was dispensed with.

Mr. ANTHONY offered the following:

Resolved, By Senate, the House concurring, that the President of the Senate and and the Speaker of the House adjourn their respective Houses until noon of the 16th of October, and that they then, unless otherwise ordered, further adjourn their respective Houses until the 10th of November at noon, and they then, unless otherwise ordered, further adjourn their respective Houses until the first Monday of December at noon.

On motion of Mr. SHERMAN, there was a call of the Senate, when thirty-four members answered, exactly a quorum.

Mr. ANTHONY stated Mr. Sprague was absent from illness.

Mr. ANTHONY'S resolution was agreed to—yeas 33, nays 1, Mr. Buckalew.

The Senate then took a recess of half an hour.

On reassembling a message was read from the House stating that body had passed a resolution to adjourn, the same as adopted by the Senate.

Mr. BUCKALEW offered a resolution requesting the House to inform the Senate if a quorum was present when that resolution was passed.

Some debate followed, during which Messrs. ANTHONY and EDMUNDS contended that Mr. Buckalew's resolution was discourteous.

The resolution was concurred in and the Senate adjourned.

Messrs. Buckalew and M'Creery were the only Democratic Senators present. Most of the Senators left Washington to-night for their homes.

HOUSE OF REPRESENTATIVES.

The House was called to order at twelve o'clock.

Prayer by Rev. Boynton.

The SPEAKER announced that the recess having expired, the House resumed its session.

The reading of the Journal was dispensed with.

Mr. SCHENCK offered a resolution of adjournment, the same as offered by Mr. Anthony in the Senate.

Mr Schenck's resolution was agreed to without division.

Messrs. BROOKS, ELDRIDGE and RANDALL declined voting.

Mr. SCHENCK asked leave to offer a resolution providing that during the remainder of the session it shall be in order to suspend rules at any time.

Mr. BROOKS objected.

Mr. SCHENCK moved to suspend the rules, but subsequently withdrew his motion.

A count by the SPEAKER showed only one hundred and five members present.

Mr. SCHENCK then asked leave to offer a resolution as follows:

Resolved, That the Committee on Public Expenditures be directed to inquire into the reasons why the Supervisors of Internal Revenue provided for in the law of July 20th, 1868, have not been appointed; also, to ascertain whether or not since the passage of said law there has been any failure of any of the officers of the government properly to administer the Internal Revenue laws, or any attempt on the part of such officer, or of any person, to defeat, embarrass, prevent or improperly interfere with the prompt administration of such laws, with power to appoint a Sub-Committee to sit during recess and send for persons and papers.

Mr. SPAULDING objected to the resolution, or any general business.

Mr. SCHENCK moved a suspension of the rules, stating there was good cause for the resolution.

Mr. BROOKS objected to any statement, unless opportunity was given for reply.

Mr. SCHENCK said he then had no statement to make.

On a count on suspending the rules, the vote stood 69 to 6—no quorum.

Mr. SCHENCK then withdrew his motion.

Mr. SCHENCK proposed a recess of half an hour

Mr. BROOKS made the point of order that less than a quorum could not order a recess.

The SPEAKER suggested that there might be a quorum present, as he noticed several gentlemen not voting, including Mr. Brooks.

On the suggestion of Mr WASHBURNE, of Illinois, Mr. Schenck renewed his motion to suspend the rules to admit his resolution on internal revenue affairs.

Mr. BROOKS made two points of order, but they were overruled by the Speaker.

M. SPALDING demanded the yeas and nays.

A message was received from the Senate that they had adopted the resolution of adjournment.

The vote on the motion to suspend the rules resulted ninety-eight yeas, two nays.

In response to a question the Speaker stated one hundred and seven constituted a quorum. At the close of the session there were two hundred and twenty-four members on the roll, but Messrs. Stevens and Finney, of Pennsylvania, and Mr. Mann, of Louisiana, had since died, leaving only two hundred and twenty-one on the roll.

Mr. WASHBURNE, of Illinois, moved to concur in the Senate resolution of adjournment.

Mr. RANDALL objected.

Mr. MULLINS moved a call of the House, which was made, only one hundred members answering to their names. The Democratic members present and not answering were Messrs. Brooks, Eldridge, Boyer, Phelps, Haight and Randall.

Excuses on account of sickness were made for Messrs. Beaman, Ferry, Hunter, Shellabarger and Upson.

During the call of the House and before its conclusion Mr. SCHENCK remarked a message was waiting delivery from the Senate.

Mr. PAINE moved a suspension of all business under the call, which was agreed to, when the doors opened and a message from the Senate was received that that body had concurred in the House resolution of adjournment.

Mr. SCHENCK then moved the House adjourn.

This was agreed to and the SPEAKER announced adjournment until Friday, October 16th, at noon.

The Speaker then left the chair and came into the area, where for more than an hour he was engaged in pleasant personal and political conversation with members many of whom congratulated him on the two-fold luck in store for him, his election to the Vice Presidency and his election by the lady who is to share his honors. These congratulations he received in the best humor and with great apparent satisfaction. He leaves Washington to-morrow night for New York.

The manner in which the Democratic members were out-generaled in regard to adjournment was the source of much amusement among the Republican members. The adjournment resolution was the first business put through immediately after the Chaplain's prayer, from the length of which some danger was apprehended, and before any Democrat had come into the hall. A single objection would, of course, in the absence of a quorum, have defeated it.

It is understood in regard to the next session, as it was in regard to that just closed, that it shall not be incumbent on any member to attend unless advised thereto by Senator Morgan and Mr. Schenck.

Mr. BUTLER, Mass., presented a petition asking the House to direct the Judiciary Committee to inquire into the breach of privilege of a member in the service of process by Mr. Woolley and by Mr. Kimberly of Baltimore on him while on his return from the session of the House, and to report what action ought to be taken to sustain the privileges of the House and to punish their infringement. Referred to the Judiciary Committee.

Mr. Randall remarked that the gentleman's colleague could speak for himself.

The Irruption in Spain—Rumors of the Queen's Abdication—Mr. Burlingame and the Chinese Embassy in London—Another Speech from the King of Prussia.

[By Telegraph to the Pittsburgh Gazette.]

SPAIN.

PARIS, September 21.—Some reports say that the rising in Spain is not a movement of Liberals alone, but is supported by all parties. It is stated that the revolutionists have failed at some points, owing to want of leaders. A rumor that Queen Isabella will abdicate is generally discredited.

The *Moniteur* publishes exciting intelligence received yesterday from Spain, and says the reported accession of some crews of the fleet at Madrid to the revolutionary movements gives gravity to the news, but accounts so far are imperfect. It is certain, however, that Gonzales, the bravest of the Ministry, has resigned, and that General Concha has been summoned to Madrid to form a Cabinet.

At last accounts the capital remained quiet.

The *Moniteur* adds: This event prevented the Queen of Spain from meeting the Emperor Napoleon again, as she left St. Sebastian for Madrid.

LONDON, September 21.—*Midnight.*—The following news has been received from Spain: The resignations of Gonzales and the members of his Cabinet have been accepted. It is rumored that the Revolutionists are acting in support of the interest of the Duke of Montpensier. Great excitement prevails in the City of Madrid;

When within a short distance of the city the steamer ran aground on a sand bank and was unable to get off. After some delay the King and officers of the Royal staff embarked on a small steamboat and were brought to the city. The King meets with a hearty welcome from the citizens wherever he makes his appearance. To-day His Majesty made a visit to the Bourse, and in reply to an address said: "Peace is desired by all. I have the surest hope that it will not be broken. My speech at Kiel was intended to give the strongest assurance of that hope, and I cannot understand how opposite impressions could have been derived from the words I used on that occasion." The explanation was received with great cheering.

The Alabama Legislature—Appeal for Troops to Preserve Order.

[By Telegraph to the Pittsburgh Gazette.]

MONTGOMERY, September 21.—In the Senate this morning a resolution was adopted asking the President to send United States soldiers to this State to aid in preserving peace. Democratic Senators denounced the resolution as a libel on the people of Alabama and as being a political scheme to control the polls and to create the impression that the people of Alabama are not peaceful. The resolution passed the House also and was bitterly denounced by the Democratic members.

A committee of five has been appointed to take a memorial to the President. They leave for Washington in the morning.

Serious Riot at Camilla—Between Seventy-five and One Hundred Persons Killed.

[By Telegraph to the Pittsburgh Gazette.]

AUGUSTA, GA., Sept. 21.—A fearful riot occurred at Camilla, the seat of Mitchell county, Ga., last Saturday. The following particulars have been telegraphed from Bainbridge, twenty-four miles from the scene of riot:

Prince, the radical nominee for Congress, and Murphy, ex-Bureau agent, with about two hundred negroes, armed and equipped, started on Friday for Camilla, with three weeks provisions and boxes of new arms and accoutrements, their intention being to overawe the citizens. Before starting some friendly negro exposed the plans, and a negro courier was dispatched to Camilla to inform the citizens what was going on. A deputation of three prominent citizens met the mob at a church five miles from the town. The Governor's proclamation forbidding armed organizations was read. The mob paid no attention to it and determined to march on. Again the deputation remonstrated entreating the negroes to come in without arms and they should not be molested. Their efforts were fruitless to dissuade the negroes, and the mob marched into the town with banners flying and drums beating. They now numbered four hundred, many having joined them on the route. The mob halted and clamored for a man named Johns. Johns, in company with Dr. Twilty, presented himself, when a hundred guns were levelled at them. The former, being intoxicated, fired, and the riot commenced, the mob firing at every one they could see. The citizens, white and colored, rallied, gathering about fifty stand of arms. The mob was vigorously attacked and driven back, and, becoming panic stricken, took to flight. The negroes were pursued five miles, losing five killed and many wounded. Their total loss, so far as ascertained will be from seventy-five to one hundred in killed and wounded, owing to the panic among the mob. Only five whites were severely wounded. The colored citizens of the town are reported to have rallied promptly with the whites in defeating the mob. The stores and munitions of the latter were captured. At last accounts Camilla was quiet.

AUGUSTA, GA., September 21.—News of the riot at Camilla caused some excitement here. It is known that the negroes are armed throughout the State, but the whites have no serious fears of a disturbance, if the negroes are not precipitated into riots through pernicious counsels and violent appeals to their passions.

Explosion of a Pittsburgh Boat—An Alleghenian Killed and Two Others Seriously Injured.

We take the following from the Cincinnati *Commercial* of Sunday:

Yesterday at 6 o'clock, a. m., the tow boat Tigress, Captain Dippold, bound from Cincinnati for Pittsburgh, with a tow of empty coal barges, when just below the mouth of Bullskin, four miles above Chile, on the Ohio river, collapsed two flues in her starboard middle boiler. The explosion was loud and terrific, the bulk of the steam, water and mud shooting forward and upward. One of the colored firemen, Alfred Duckett, of Allegheny City, Pennsylvania, was blown overboard on the port side and lost. His body was not recovered. Two other colored firemen, Chas. Anderson and Henry Gatewood, also of Allegheny City, were badly scalded, the former, it is feared, fatally. They were conveyed to the Cincinnati Marine Hospital. The balance of the crew escaped without serious injury. Mr. W. E. Russell, Chief Engineer, had been on watch about twenty minutes when the accident occurred, having just relieved his partner, John McName.e

As previously stated, the bulk of the steam went forward, sweeping overboard one thousand bushels of coal, stowed in front of her furnaces. Fortunately, the tow boat Sam. Roberts, with another tow of empty barges, upward bound, came along immediately after the explosion of the Tigress, and hastened to her relief, towing her ashore. The tow boat Fred. Wilson afterward towed the Tigress here, arriving at 3 P. M. She lie at the foot of Ludlow street. When we visited the wreck, the United States Local Inspectors, Messrs. Fisher and Devenny, were on board examining her boilers, and seeking information relative to the cause of the disaster. The Tigress left her empty barges at Snag Bar. She will be repaired here.

SONG.

From the grass-covered mountains of Vermont,
From the pine-shelter'd vallies of Maine,
The glad shout of victory echoes:
"The foemen are flying amain."

Hurrah for the lealmen of Vermont!
Hurrah for the axemen of Maine!
They've routed the foe in the onset,
In November they'll rout them again!

Then up with the star spangled banner,
And make the wide welkin resound,
No star in its fold must be darkened,
No slave in the country be found.

From Penobscot to fair Chattahoochee
Mild Peace will extend her domain;
With Grant and Colfax for our leaders
No war shall molest us again.

Then hurrah for the lealmen of Vermont!
Hurrah for the axemen of Maine!
They've routed the foe in the onset,
United in November they'll rout them again!

—Anderson Wood & Co., of this city, employ 275 hands and turn out 4000 tons of steel annually.

—The Underhill Edge Tool Manufactory at Nashua, N. H., makes 800 axes and other edge tools daily.

—For many of these items of manufacturing news we are indebted to the Boston *Commercial Bulletin.*

—The Cleveland Rolling Mill Company has begun the manufacture of Bessemer steel at Newburg, Ohio.

—One sign painter in Detroit has sixteen hands constantly employed now in painting political mottoes and banners.

—One manufactory in Toledo, Ohio, makes 1,200 dozens of axes yearly, and have just doubled their capacity.

—A large soap and candle manufactory is to be opened in Bath, Me., shortly, where it has been built by Portland capitalists.

—The Ravenna, Ohio, Manufacturing Company has just been organized with a capital of $200,000. It will make agricultural implements.

—The South Western Rolling Mills at Chattanooga have stopped work to wait for better times, which they will surely get when Grant is elected.

—Reynolds & Co.'s flouring mill at Maumee City, Ohio, is run by a never failing water power, and turns out 150 barrels of white wheat flour per day.

—A hydraulic cotton press weighing 35 tons has been made in New Hampshire. It has a compressing power of about 5,000 pounds to the square inch.

—One car factory in Toledo covers four acres of ground, and makes from twelve to fifteen box and platform cars per week, employing one hundred hands.

—There is a large cotton mill being built at Marseilles, Ill. It will have one hundred looms, four thousand spindles and be capable of producing five hundred yards of cloth per day.

—A dam of solid granite and 625 feet in length is being built across the Housatonic River, near the Birmingham bridge. It is believed that this place is the site of a large city of the future.

—A little lot of 7,000 car wheels is being manufactured by the Dickson Manufacturing Company, of Wilkesbarre, for the Delaware and Hudson Canal Company which, despite its name, runs a railroad.

—The Weed Sewing Machine Company at Hartford is working very busily. Within the last ten years it has made twenty thousand machines and is now turning them out at about the rate of one thousand a month.

—In 1865 the Kelley's Island Wine Company was organized with $100,000 capital for the manufacture of native wines. The product of last season was 100,000 gallons, and it is thought it will be double as much this year.

—At Fall River two new mills are being erected; one, which is almost done, is to have about 50,000 spindles, and the other, the foundations of which are finished, is to have 30,000. The first is the Mechanics' Mill, and the other the Fall River Factory.

—Chicago has gone heavily into the shoe business. One firm turns out 75 cases of boots and shoes per week, one turns out 125 cases of slippers per month, another is just about to occupy an immense three storied factory, and another firm makes 600 shoe lasts per day.

—Many of our large manufactories are going to turn out in their might for the procession on Thursday next. We have heard of one concern which is to turn out nearly four hundred strong, and another upwards of three hundred. Huge straws of this sort show what a hurricane is blowing.

—A company has been organized, with a capital of $200,000, for making wrought iron blooms directly from the ore, by the Jameson process. —A lunatic on Blackwell's Island stands behind the door all day to avoid notice. It is a pity that all lunatics wouldn't do this, instead of stirring up the country and trying to govern.

—Some men in digging a ditch in Chicago, on Friday, uncovered the dead body of a man, which was much mortified and decomposed on being thus uncovered to the public gaze.

—A boiler in Memphis blew up recently and threw a negro about one hundred feet into the air without seriously injuring him. This is considered legitimate capital for Democrats to work on.

—Field Marshal Von Wrangel has served seventy-two years uninterruptedly in the Prussian army. He is now a very old man, and the Wrangle which has existed for so long in the Prussian service will soon cease to exist.

—The Republican procession in Erie, on the 24th will be a grand affair. Gen. Dan. Sickles is going to address the people in his usual manner, which is so convincing that we might almost say the eloquence of Dan. Sickles would melt *I Sickles.*

Another Improvement in Photography.

The Paris correspondent of the London *Times* notes a new and important improvement in the preparation of photographic paper:

"It has long been a *desideratum* with photographers to obtain a paper that would properly receive the pictures painted upon it without having been previously glazed over with white of egg, or some preparation that supplies its place. All who have at any time busied themselves with photography (and the amateurs are very numerous nowa-days) know that this glazing or albumenization is necessary in order that the rays should not penetrate into the pores of the paper, making their mark within rather than without, and so leaving upon the surface an imperfect representation of the object reproduced. But the glazed surface is in some respects disadvantageous, especially in the case of large photographs, rendering it difficult to get the right light and to see the whole picture at once, without parts of it being rendered less distinct than others by the shimmer of the glazing.

"Numerous attempts have been made to discover something that would answer the purpose of the albumen, and yet leave the surface dead instead of shining. The object has been at last obtained in Paris, by Chambay, the photographer of the Champs Elysees, whose new mode of coloring photographs attracted notice about two years ago. I have seen photographs done on his paper, and they will soon be seen everywhere, for the effect is very beautiful. The photograph has a much greater softness upon the dull paper, and, moreover, photographs taken from engravings are upon this paper, undistinguishable from the originals. Exact facsimilies of old engravings, yellow from time, can also thus be made, the required tint being very easily imparted to the paper by exposure to the light. The glaze that hitherto has always betrayed the photograph is completely displaced. The process to which the paper is subjected is a secret, but it may be applied to any kind of paper. It is one of the most important improvements that has for a long time been made in the materials of photographic art, and it can hardly fail soon to get into general use."

Women as Base Ball Players.

The young women of Peterburough, N. H., jealous of the popular sports enjoyed by the more muscular portion of mankind, have organized a base ball club, and already arrived at a creditable degree of proficiency in play. There are about fifty members belonging to it, from which a playing nine has been chosen, headed by Miss Nannie Miller as captain. The nine have played several games outside the town, and away from the gaze of the curious. Having thus perfected themselves, this nine lately played a public game in the town of Peterborough, as may well be supposed before a multitude of spectators, which is thus spoken of:

"This constitutes the senior nine, and on the occasion of their first exhibition they played the junior nine of the same club. Their dress consists of short blue and white tunics trimmed, white stockings and stout gaiter shoes, the whole forming a combination that is at once neat, easy and exceedingly beautiful!

"As the two nines came upon the ground, it would be hard to tell which of them had the greatest number of friends present, for loud and continuous cheers and clapping of hands marked the *extras* of either one.

"Without loss of time Mrs. J. S. Smith was chosen umpire, and Miss Martin and Mrs. Benny as scorers. The penny was flipped to see who should first go to the bat, and the juniors won it. Hattie Harding took up the bat, and the remainder of the nine stood ready to follow suit. But she was caught out on a fly, and before her friend had time to make a single score, they were sent to the field. From the moment the seniors went to the bat they had things their own way. Notwithstanding the best efforts of the juniors, they would either foul out, or knock the ball high, and inning after inning was given up without a run to mark their stay at the bat."

ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, September 21, 1868.

CATTLE.

There was a full supply of Cattle on sale to-day, and with but few foreign buyers in the market, upon the whole, was scarcely as good as it was last week. The whole number of Cattle on sale aggregated about seven hundred and fifty head, of which about eleven hundred were sold at eleven o'clock, and, we presume, that by one P. M. there were but few in the pens unsold. Prime to extra retailing Cattle brought fully last week's prices, while common and inferior, if anything, ruled a shade lower; the former, as is nearly always the case, sold without much difficulty at good prices, from 6½ to 7½c, and medium may be quoted at 5½ to 6½c. Stock Cattle without quotable change, ranging from 3½ to 4½c; some very fine stock steers bringing 5. Bulls may be quoted at 3 to 3½c.

The great proportion of the Cattle on sale to-day were from Pennsylvania and Ohio, with some two or three droves from Indiana and Illinois. We notice unusually large arrivals from Washington county, including some very fine fat heifers and steers, equal to any coming from the west. Butler county is also sending a large number to market, but they are mainly of an inferior grade, consisting of thin steers, bags, old cows and bulls. Lawrence and Mercer counties, as a general thing, do not furnish very many good Cattle, though a little better than those coming from Butler. Green county turns out some good stock, being nearly up to the standard of Washington county in this respect. It is evident from the largely increased number of Cattle that have been sent to this market from the counties above named, that farmers in Western Pennsylvania are beginning to turn their attention more closely to raising stock, having discovered that it is equally as profitable as tilling the soil, with less labor attached to it.

McMillan & Kerr sold 13 head Washington county steers at 4,25 to 7,25.

Jas. Hanlin sold 12 head Washington county steers, heifers and cows at 3 to 6c.

Rothchilds & Katz 15 head good to prime hog stock at 6 to 6,75.

SHEEP AND LAMBS.

The supply of sheep was very full to-day, every available place about the yards being filled, and had it not been for the presence of some few "outside" buyers, the butchers would have had it all their own way. Strictly prime fat Sheep, of which there were but comparatively few on sale, were in good demand, and brought full prices while common and inferior were very dull; indeed, in many cases, buyers at this grade at their own price. Prime extra fat sheep brought from 4½ to 5¼ cts per pound; medium to good at 3¼ to 4, and common and inferior at 2½ to 3. We recognizant of one small drove which was bought in Western Virginia at *ten cents per head*. this bunch of sheep was so poor that they were scarcely able to stand up, and the man who would bring such stock to market ought to be watched closely by the meat inspector.

Ben. Butler sold 116 head fairish Washington sheep averaging 77 lbs to H. Deitrich, at 3,45.

Flinner & Sheitemantle 212 sheep and lambs at from $1 to $2 per head.

L. Thompson 110 head Mercer Co. sheep at 2½ to 4¼.

Clark to Maggi 207 head Lawrence sheep at 50 to $1,50 per head.

M. Hudnas 90 head Beaver Co. sheep at from $1,50 to $3.

Dinn to H Deitrich 108 head of good sheep averaging about 83 lbs at 4.

J. Metz 52 good to extra Washington Co. sheep at 4 to 5¼.

HOGS.

There is a continued fair and increasing demand for this class of stock, which is in consequence of the change in the weather, while so far as prices are concerned there is no important change—10 to 11¼ cts, for good to prime heavy averages. Emerick & Co. bought 27 from Myers & Needy averaging 230 at 10,65: 30 head from Elliott, averaging 250 at 10¾; and 19 from same, at ——

RIVER NEWS.

The river was swelling slowly at this point last evening with three feet seven inches in channel by Monongahela marks. The weather cleared up again yesterday, and for the time, being it would seem that the rain is over.

The Ingomar, from Wheeling, is the only arrival from below since our last report. The New York, from Cincinnati is due.

Capt. Jas. Rees received a telegram yesterday, announcing the sinking of the Silver Cloud, No. 2, at Belfair, on Sunday evening in three feet water. No further particulars.

The Mary Davage, which boat left here on Saturday evening with a barge in tow, run it hard aground, and returned to the wharf yesterday to wait for a rise.

The New State, for Wheeling, and the Bayard for Parkersburg departed yesterday.

Capt. J. H. Porter has named his new Arkansas River boat Economist. He expects to raise steam on Wednesday, and to take his departure on Saturday. She draws less water than any boat that has been built here for some time.

The Ida Rees No. 2, Capt. G. W. Albert, with Mr. Jas. H. Rees in the office is up for Cincinnati and Louisville.

The Kenton will lie over until there is more water.

Mr. John Ekin, an old and well-known steamboatman, was in the city yesterday. Mr. E. is now connected with the Treasurer's office of Beaver county, Pa.

The Grey Eagle is aground at Glass House, but as the river was swelling slightly, we are in hopes that she will get off in time to leave for Parkersburg to-morrow.

The consolidation of the two Brownsville packet companies has been fully consummated, and the Chieftan departed for Brownsville yesterday with the mail, on her first trip under the new administration. The Elector and Chieftan, of the "People's," and the Bennett and Fayette, of the "Union" line, have been taken for the consolidated line.

Capt. M. A. Cox, of the Bennett, is, we understand, building a new boat for the mountain trade.

The Kate Putnam, Capt. Geo. W. Reed, is announced for Cincinnati and Louisville forthwith.

—According to the Dubuque *Herald*, the prices paid by the W. C. Line for the Countess was six thosand dollars.

—The towboat Rover, with five barges of railroad iron for Belmont and St. Louis, passed down over the falls on Saturday.

—The Memphis *Appeal* of Thursday says: The Peorie City passed down yesterday. She had heard of our uniform wharfage affair and did not land, but put her passengers ashore in a yawl. Things is working.

—A late New Orleans paper says: Two thousand six hundred and forty-one bales cotton were received yesterday by the following named steamers: Robert E. Lee, 1,150 bales (the largest load of the season); Gossamer, 194 bales; Cuba No. 2, 69 bales; Ruth, 52 bales; and Nina Simmes, 386 bales.

—The Vicksburg *Herald* says: "The Frank Pargoud arrived from the Bends last evening with 1,107 bales of cotton. She got ovsr 500 more at this place. Capt. W. C. Hardwick has sold his one-third interest in the Myrtle, to Captain J. O., Stephens, os the Newsboy, for $3,500. Terms private. Boat to be delivered November 21st. An interest in the Newsboy was sold to J. H. Blessing, at the rate of $4,000 for the whole boat."

—The St. Paul *Press* of the 19th says: "The steamers Milwaukee and Dubuque left the wharf about together, evidently bent upon a race. The passengers were much hurried in getting aboard, and indeed some were left. The mail for the Milwaukee was too late to be gotten on board. The river is rising, with an excellent stage of water at present."

—We have the following additional particulars in regard to the sinking of the J. P. Webb, from the Louisville *Courier*: She now lies at the head of Sand Island in 25 feet of water. The only portions of her that her visible are the pilot-house and a small part of the hurricane deck. Her upper works parted from the hull and are only held to the wreck by the hog chains. She lies apparently perfectly straight, and as the river is falling there are faint hopes that she may be raised. The Webb was owned by M. A. Lancaster, of Vincennes, Indiana, and was valued at $7,000. As stated before, she was uninsured. The cargo was nearly all shipped from Cincinnati and was partially insured. Protest was entered here yesterday. We understand that Capt. Lancaster intends re-chartering a boat to take the place of the Webb in the Cincinnati and Evansville trade.

GOLD closed in New York yesterday at 143¾.

CONGRESS met yesterday and ordered another recess until October 16th, when, unless otherwise ordered, the presiding officers shall adjourn both Houses to November 10th.

THE *Post* maintains a profound silence upon the topic to which the *State Guard* called its attention. For a few weeks, at least, it will probably be less clamorous concerning Republican extravagance and rapacity in legislative bodies.

THE CUT and accompanying matter which we copied, yesterday, literally from the Tuscaloosa (Alabama) *Monitor*, were disrelished exceedingly by the Democrats. All we have to say is that if the Southern friends of SEYMOUR and BLAIR will put such cuts and such sentiments into their newspapers it is well for Northern people to inspect them.

WHILE MR. S. F. CARY, during his recent visit here, was careful to protest, both in public and private, that he had no connection with, or sympathy for, either of the great political parties, the *Post*, in reviewing the various points made by him in one of his addresses, does not hesitate to affirm that "in all these things we are happy to find General CARY in accord with the Democratic party!" This is one form of acknowledging that the political movement of which he is the representative, is only a dodge to lead Republicans into the Democratic ranks. The dodge is now understood by the Republican working men, and consequently has lost its power to deceive them.

ON THE occasion of the recent editorial excursion to the terminus of the Union Pacific Railroad the editors participating in the very pleasant affair formed a Rocky Mountain Press Club, with Hon. C. A. DANA as President, and a full complement of officers. At New York the entire party, some thirty in number, sat for a group picture at GURNEY'S national headquarters for fine protographs, No. 707 Broadway. We have just received a copy, which is a masterly effort and without exception the finest specimen of the photographic art that has ever been seen in our city. Every portrait is perfect, and although covering much space, there is neither blot nor blemish in the work. We marvel not that GURNEY takes first rank in American photography.

IN THE FOUR FISCAL YEARS ending June 30, 1868, the Treasury has received $1,456,539,737, but VALLANDIGHAM and other Democrats state it at $1,594,000,000. It has paid, in the same time, as follows:

Disbursements for the army and navy for 174 days following Grant's election	$ 625,000,000
Interest on Nat. obligations created by a Democratic rebellion	420,000,000
Paid on principal of debt	266,185,121
Applied to that principal in 1868	34,749,777
Back pay, bounties, transportation and prize money accruing during the war, and paid afterwards, over	140,000,000
New bounties to soldiers	49,583,859
War claims to the States	10,530,000
Paid for property lost and destroyed	11,000,000
Total	$ 1,556,048,757

That's where the money has gone, every dollar of it expended to pay for the illustration of Democratic principles in a four years' rebellion. And this same party is arranging a second entertainment of the same sort for the benefit of the American people!

ARE YOU ASSESSED?

Remember that the period for assessment, for the October election, expires on Saturday, October 3d, at midnight. Without you are assessed at least ten days before the election, and your tax paid before you go to the polls, your vote may be challenged and must then be rejected. Let every voter heed these requirements of the law and secure his own qualification in good time.

THE DEMOCRACY DEMAND "more currency." This, notwithstanding we have $989,000,000, or $27 per head for our total population; England has averaged only $17 per head for several years past. It is not more currency which the Democracy want; their only aim is to destroy the value of what we already have.

THE contradictory and unprincipled partizanship of the Democracy, is illustrated by the fact that their National platform, advocating the taxation of bonds, was adopted in July, although a State Convention of the same party at Albany only a few months before refused by the nearly unanimous vote of 163 to 18, to favor that taxation. In that Convention, the Democracy of New York city, through JOHN B. HASKIN, protested against the new doctrine, that it would ensure the loss of the State by 70,000 majority, and that they would lose votes even if they talked about it. Yet VALLANDIGHAM, PENDLETON and FORREST ultimately forced them into this fatal position. The result will be that HASKIN'S prophecy will be made good!

THE DEMOCRACY propose to take off the present taxation on "spirituous liquors, tobacco, incomes, stamps, legacies, salaries, banks, railroads, &c., gross receipts of Telegraph, Express and Insurance Companies, passenger receipts of railroads, steamboats, stages, lotteries, theatres, fines, penalties, pianos, gold watches, jewelry, gold and silver plate, carriages, billiard-tables, patent medicines, and a few other articles in schedule A," and put it on all property alike. The list above given comprehends the entire system of our internal taxation, and yields by estimate, this year, $157,000,000. Observe that the income tax, $35,000,000, is all paid by only 240,134 persons out of 36,000,000 of people. Are the people in favor of relieving the "oppressive burthens" of the wealthy and luxurious few, and taking that load on their own shoulders, taxing lands and lots and everything alike? Answer at the polls.

WHEN HORATIO SEYMOUR was Governor of New York in '64, a proposition was made to pay in greenbacks about a million of dollars in interest upon certain State bonds held in Europe, the law under which these had been issued not having specified the currency in which the interest should be paid. The Governor officially denounced the proposition, saying in his message of April, '64:

"When we sought the markets of the world with our securities, we pledged ourselves to redeem them in the currency of the world. The partial neglect of plighted faith last year is now to be followed by an open refusal to pay any of our promises according to their plain sense. The disgrace of last year was limited; it was kept within ourselves: *now our shame and dishonor are to be borne in the face of the world,*"

He also took the unprecedented step of sending a circular to private bankers and rich men of the State, pleading with them to pay the coin by voluntary subscription, and adding:

"Unless this be done the honor of New York is lost. In wealth and numbers, in the ability to pay, New York stands far above any other State in the Union. Other States, inferior in means, do not find the obligations of the hour too great for an honest performance. If New York falters now, it can claim no indulgent opinion of the world—the State brands itself with dishonesty."

Yet now, at the bidding of a rebel and repudiating majority of the National Democracy and insanely deluded with the hope of an election to the Presidency, he abandons his more honorable record, and identifies himself with their proposition for a flagrant breach of public faith, "branding" his State, his Nation and himself "with dishonesty." Such is Democratic consistency and principle!

"TAX THE BONDS," will you, my Democratic friend? How? By State laws? The Supreme Court, in seven adjudicated cases, says *No*. Moreover Congress, by act of February 25th, '62, expressly prohibited this. By Federal laws then? This would be equally a breach of implied faith. Nevertheless, by common consent, these bonds are already taxed, under Federal laws, higher than any other description of property. Observe the facts. We have $1,900,000,000 of six per cent. bonds; of these $600,000,000 are held in Europe and you can't touch them. Of the other $1,300,000,000, your National banks hold $425,000,000, and pay taxes thereon already, State and National, on stock, and profits, capital, &c., over 4 3-10 per cent., being higher than on any other kind of property. The savings banks hold $175,000,000 and are also taxed for all purposes, State, National and local, in all of the States. The same is true of the life, fire and marine insurance and annuity companies and other corporations, which, all together, hold $155,000,000. Moreover, every stockholder in these companies and every holder of bonds otherwise pays an income tax. Thus the bonds contribute more in the way of taxation to the Treasury than any other description of property. If you are sincere in your demand for equal taxation, you will relieve them from more than half of their present burthens, and assess that amount upon all the property of the people. Better let well enough alone! You are getting now over $18,000,000 per annum, from the National Banks alone, on only one-third part of the entire amount of $1,300,000,000 of bonds held in this country, whereas, by your "equal taxation" at a uniform rate of one per cent., you would only get $13,000,000 from the whole. If your "uniform rate of equal taxation on all property" is to be more than one per cent., so much the worse for the owners of small farms and homesteads in town or country.

THE REAL ISSUE.

Rendered desperate by the issue of the Vermont and Maine elections, and learning therefrom, moreover, that their party gains nothing by a flimsy disguise of the real issues, the Democracy have unmasked their last battery upon the financial question, and boldly avow the correctness of the charge which has been made against them by the friends of the Union. We have proven plainly and often that their real design is to repudiate all the pecuniary obligations incurred in the defense of the Republic, but, hitherto, they have dodged, paltered, equivocated and attempted to deny this logical consequence of their propositions. As they find that this game don't win, they now scorn further concealment and run up their true colors. The doctrine for to-day and the residue of the canvass is proclaimed, in the clearest language, by two distinguished leaders of the rebel-Democracy, whose declarations are now before us. Mr. JESSE D. BRIGHT, a former Democratic Senator from Indiana, but now living in Kentucky, was the chairman of the Kentucky Democratic Convertion which nominated the ticket elected in that State last month. The sterling-nature of *his* Democracy, or his prominence as a leader of the party, are not to be denied. In his principal speech, as chairman of that Convention, he took this ground in relation to the public debt:

He was opposed to the war from the beginning to the end. *In Congress he denied the right of the Government to declare war against a sovereign State.* (Applause.) *He also denied the power of the Federal Government to issue paper money to cut the throats of the Southern States.* (Cheers.) *He never intended to vote to pay a dollar of the principal of the debt.* (Cheers.) He was opposed to paying a dollar of the national debt in coin. He would, if Democrats so thought, vote to pay the debt in paper, and *then let the paper take care of itself.* (Cheers.)

Says BRICK POMEROY, especially indisputable as high Democratic authority:

This financial problem is too big a thing to be handled, except in one way. This whole debt has got to be sponged out.

While one of these gentlemen demands repudiation at once, by "sponging out" the entire debt, the other would reach the same end by Mr. PENDLETON'S plan of "paying" off the debt in paper, and then "let the worthless paper take care of itself." They propose the same end, and differ only in the degree of directness with which they would approach it. BRIGHT'S recommendations were loudly applauded, while POMEROY'S bolder and more honest utterances have been universally read and endorsed by the Democracy. BRIGHT'S revelation of the Democratic purpose was made in Kentucky two months since, the rebels of that State being as heretofore, the authorized pioneers of the Democracy in all that relates to rebellion, of which repudiation is an essential element.

Let none of our friends, therefore, forget these authoritive and honest interpretations, from leading Democrats, of the real signification of the vague and cloudy generalities with which the New York platform has hidden the real purpose of repudiation. Let us accept them for what they are—frank and defiant acknowledgments, upon high Democratic authority, that the party, which opposed the war for the Union and still reiterates its undying hostility to the results, social and political, which that war has victoriously accomplished, will, if restored to power, "sponge out" all our honest obligations as a people, repudiate our debt, repeal our pension laws and close the Treasury against the payment of another solitary dollar to the patriotic citizens who gave of their blood and their wealth to uphold the old flag.

Trampling the Constitution as amended under their feet, they will no longer be precluded by the XIVth article from "sponging out" as well the debt, the pensions and the bounties which are now claims upon the national honor and its gratitude, as all other claims of the same nature, *to be incurred in future wars* for the defense of the Union against domestic traitors. It is for this reason that the adoption of that Amendment is so distasteful to them. As General BOWIE, a Maryland Democrat, said, the present debt—and he meant these pensions and bounties as well—was in the view of that party "incurred for an unholy and wicked purpose;" so they would invalidate future expenditures, *because it is their avowed purpose to be rebels again*, and they hope that a threat of this sort would discourage the friends of the Union from aiding it when assailed.

The Democratic Platform, which embodies BLAIR'S insurrectionary and treasonable menaces, together with such insidious but fatal assaults upon the duty and ability of the Treasury to meet all the honest obligations of the war-debt, is in each of these features thoroughly consistent. The same end is kept singly and steadily in view, whether in bearing down and crushing loyalty by the brute force of powder and ball, by the bayonets of the soldiery whom the next Democratic Presidential Dictators is to march from Capitol to Capitol of the reconstructed States of the South, to put down the starry banner of freedom and replace the lost cause and its rebel friends at last triumphant, or in crippling the vigor of loyalty in its struggle for the right, by assailing its monetary resources, which in all ages, and among all people, have been regarded as the sinews of war. How long for example, could the Republic have struggled on, with what hope of ultimate triumph, had its appeals to the wealth of the people in '63 been met and effectually silenced by any conviction that no moneys loaned to the Treasury would be repaid? True, there were heard then, here and there not a few traitorous threats, that there should be no repayment of these contributions, but these were not heeded, for the great mass of our people were too loyally an unit to be diverted from their patriotic purpose by any distrust of that National honor which they were then resolute to preserve. What the rebels and their Democratic sympathizers failed to accomplish then, is again deliberately proposed, when a great party accepts and maintains the principle that, as the war was a wicked one, as its proper results are unconstitutional and void, so each and all of these results, including every dollar of debt thereby incurred, either to bondholders, or to the pensioned crippled veterans, their widows or their orphaned children, are to be "sponged out."

This is to be not only the measure of Democratic wrath against the Union victors in the late war, but it signifies the Democratic menace against all such who dare to uphold the Union when a second time assailed. And for that second assault the rebel conspirators are aleady armed, arrayed and awaiting the signal from FRANK BLAIR and Fort Pillow FORREST. Thank GOD! Loyalty is ready for them both with money and men!

THE DEMOCRATIC PLATFORM.

We reprinted yesterday the Southern rebel understanding of the New York platform, which the friends of the "lost cause" have saddled upon the broad shoulders of the National Democracy. We copied the arguments used in Alabama to promote the election of SEYMOUR and BLAIR, taking a *fac-simile* from a Democratic journal in that State, and giving it to our readers, picture, head-lines, display letter, editorials and all, exactly as the Tuscaloosa editor spread the inviting feast before his rebel readers a few days before. Of course, our sole object was to enable the honest and patriotic people of the North to see precisely how and why the rebels support the Democratic ticket. Who can doubt, who remembers all the violent declarations of the Democratic leaders, from BLAIR down to Parson WEEMS, that the Alabama editor has hit the exact idea of the New York platform? He knows that it means, if successful, nothing else but anarchy, civil war, unbridled license and outrage, the proscription and death of all friends of the Union, and the re-establishment of the rebel regime of slavery and despotism. That Alabama Democrat was no fool; he had the correct understanding of the doctrine. And he was no sneaking coward, for he dared to say what he thought, and to make his meaning patent by a pictorial illustration poor enough in its artistic execution, but too eloquent to be misunderstood by the dullest comprehension. The Democratic leaders of Alabama and Pennsylvania mean precisely the same thing; the first dares to say what he thinks, while the last works for the same end in a cowardly round-about way. Our readers will agree with us that the Alabamian makes decidedly the best, manliest and most creditable stump-speech for his party.

HOW MANY TICKETS?

At the October Election, in all the districts of Allegheny county, outside the City of Pittsburgh, each voter will deposit two tickets.

1. One ticket embracing the names of all State officers voted for, and to be labelled "State."

2. One ticket embracing the names of all County officers to be voted for, including Senator and members of Assembly, and member of Congress, and to be labelled "County."

In all the districts included within the present limits of the City of Pittsburgh, there will be these two tickets and three more.

3. One ticket embracing all City officers to be elected, that is to say, this year, Mayor, Controller and Treasurer, and to be labelled "City."

4. One ticket embracing the names of all candidates for City Councils to be voted for, and to be labelled "Councils."

5. One ticket embracing the names of all School Directors and other Ward officers to be voted for, and to be labelled "Ward." This last ticket will include all candidates not embraced above.

THE REVOLUTION IN SPAIN.

The misgovernment of a depraved and incapable woman has resulted in another Spanish insurrection. The information now at hand is meagre and inconclusive; it warrants, however, a belief that the revolt is not provincial, as in several instances heretofore, but that it comprehends all sections of the monarchy, and assumes the dignified and grave proportions of a national effort to throw off a disgraceful and thoroughly despised yoke. Rumors that the Queen had left the kingdom and even that she has abdicated the throne accompany the first announcement of the outbreak. All things are possible in Spain, as it has been ruled for two generations, and it is, therefore, not improbable that the last BOURBON remaining upon an European throne has been deposed. This dethronement would create scarcely a ripple in Continental politics, but the settlement of the succession may involve the peace of all Christendom beyond the Atlantic.

IN each of the rebel States, except two, there is a large majority of white people and white voters. So much for "negro supremacy"!

The present Constitutions of the seven reconstructed States were submitted to and approved by a majority of the people of each State. In all the ten States, the white voters registered but 37,075 less than the aggregate Presidential vote of 1860, and their voice was emphatically in favor of holding Conventions. This meets the demand of the Democratic platform that "the citizens of each State shall regulate its elective franchise." If they wish to amend it still further, they shall do it under the forms of law, and not by the brute force of bayonets, led by HAMPTON and BLAIR.

THE precise value of "special telegrams to the New York *World*," and of the claims of that journal to the possession of superior facilities for obtaining accurate intelligence, is exhibited by the New York *Commercial Advertiser* thus:

The idea of such a shaky concern as the *World* going to all this expense, is decidedly laughable, to say the least. A sheet which endeavors to make up its weekly deficits by cheating the employes of the establishment out of their wages, which gives the "fat" matter to female type setters, and which is prosecuted by its cotemporaries for its share of the expenses connected with the Associated Press, isn't very apt to make extra outlays for "special" telegrams. Not much!

THE DEMOCRACY say the public debt must be paid at maturity and not postponed. On the other hand, the Republicans insist that it shall be spread over a fairly prolonged period for its redemption. Redemption, as demanded by the Democracy, will require us to pay $150,000,000 per year for the next sixteen years, in addition to the interest. Pennsylvania's share of this would be at least $20,000,000, quadrupling our present State taxation and to be collected, under the new Democratic doctrine of "equal taxation of all property," by an army of tax-gatherers, from every citizen of Pennsylvania. How do the people like that prospect? The Republicans demand that future generations shall contribute to the payment of a debt which has earned the preservation of their liberties. SEYMOUR, in his speech of March 11, '68, said: "This debt should fall upon the future." Pay the debt now, and it would take $60.46, per head of the entire population; defer it to A.D. 1900, as we advantageously may, and with our then increased population, it would take only $26 per head. Again, SEYMOUR was right when he said, before the Presidency fatally tempted him: "*Then*, this debt will rest more lightly upon greater numbers and greater wealth than it presses to-day upon depressed industry and the depressed spirits of the people." Thus the absurdities and the wicked fallacies of the New York platform are constantly confronted, by the recorded utterances of eminent Democrats and by the unanswerable logic of facts.

Ohio State Fair.

[By Telegraph to the Pittsburgh Gazette.]

TOLEDO, Sept. 21.—The Nineteenth Ohio State Fair, now in progress here, is the largest and best exhibition of all things legitimately connected with a fair ever held in Ohio. The live stock department abounds in the best animals of Ohio and neighboring States. There are on exhibition among the horses purchases direct from France and draught horses from England. The agricultural, machine and implement department has never been equalled at any exhibition. The fruit and vegetable halls are large and full to overflowing with the choicest fruits and products of Ohio. The fine art hall is the most attractive one ever filled in Ohio. There is ample accommodation for visitors. The weather is fine and attendance large.

—A meeting of tax-payers of Mount Vernon, Westchester county, New York, was held in that village on Saturday evening to consider sundry appropriations for improvements in the roads, cross walks, &c. Before any vote was taken a petition was offered from one hundred ladies of the village, demanding the right to vote on the question, as they were tax-payers. The village charter was quoted to show that they were not qualified, and the male tax-payers alone voted on the question. During the proceedings one lady asked permission to say a few words in behalf of another lady, a heavy tax-payer, who had just entered the room, but she was declared out of order. A Mr. Wingat then arose and said that several ladies had deputed him to represent them, but he was hooted down with cries of "put him out." Two gentlemen then took the ladies' part, but they were put down, and the ladies gave it up for the present.

—The will of the late Edwin A. Stevens bequeathes nearly twenty millions of dollars. Two public school-houses in Hoboken are bequeathed to that city, and six hundred and fifty thousand dollars for the erection and maintenance of another school-house is donated. The Stevens battery, for the completion of which one million of dollars is donated, is to be presented to the State of New Jersey. The rest of the property falls to the widow and children.

HAS SUMMER ENFEEBLED YOU?

Nine out of every ten to whom this question is addressed, if they answer it candidly, will answer it in the affirmative. Some may reply to it from a sick bed; others, of a stronger constitution and greater powers of endurance, may only experience a slight lassitude as the consequence of the torrid season. But some portion of the vitality of all human beings oozes out of them under the pressure of great and continuous heat, and the sooner the loss is completely repaired, the less susceptible will the system be to the unhealthy influence of the Fall malaria.

The most genial and wholesome tonic that has ever been offered to man—as a means of recruiting his exhausted strength, and fortifying him against the attacks of disease—is HOSTETTER'S STOMACH BITTERS. Taken at this season it is a perfect safeguard against intermittent fever, bilious affections, and all the epidemics which follow close upon the expiration of the Summer. It is an invigorant and alterative without any of the drawbacks which attach to mere stimulants, and is the only preparation of the kind which a conscientious physician would feel inclined to prescribe for ladies in delicate health. Nothing can be more pure, more harmless, more certain to restore the vigor of the system permanently and thoroughly, without exciting the pulse or the brain.

CHRONIC DISEASES OF THE EAR.

In observations and notes taken by Dr. KEYSER, of this city, on the various diseases of the ear, he says that nine out of ten cases could be cured in their incipiency if application were made to some responsible and competent aural surgeon. The Doctor quotes from the opinion of Wilde, a well known aural surgeon, who says: "I fear not to reiterate the assertion which I made on several former occasions, that if the disease of the ear were as well studied or understood by the generality of practitioners, and as early attended to as those of the eye, it would be found that they were just as much within the pale of scientific treatment. * * Deafness is so common and so distressing an infirmity, and when of long standing so incurable, that we cannot too strongly urge all medical practitioners to make themselves familiar with the treatment of the diseases of the ear."

The Doctor says that nearly all annoying Discharges, Buzzings and Morbid Growths peculiar to the organ of the hearing, some of which had lingered through a score or two of years, can be cured or ameliorated by proper treatment.

NEW ADVERTISEMENTS.

THE GREAT

PACIFIC RAILROAD,

—receiving the aid and supervision of the Government, and carried forward by the extraordinary resources and energy of the powerful Corporations to which it was entrusted—is rapidly approaching completion, and it is safe to say that NEW YORK AND SAN FRANCISCO

WILL BE CONNECTED BY RAIL

BY THE FOURTH OF JULY NEXT.

More than two-thirds of the Through Line and Branches between the Missouri River and the Pacific Ocean are constructed, at a cost of nearly

ONE HUNDRED MILLIONS,

And the remainder is being pushed forward with unparalleled vigor. The

Central Pacific Railroad Co.,

To whom belongs the Western and Principal Portion of the Main-Stem Line, receive from the United States Government,

I. The right of way through the Territories, with the use of timber and materials along the route.

II. An absolute grant of twenty sections per mile (12,800 acres,) of the PUBLIC LANDS on the line, the minimum value of which is now fixed at $2.50 per acre.

III. A special issue of U. S. Six Per Cent. Bonds, at the average rate of $35,000 per mile, delivered as the work progresses, which the Company are allowed to repay within thirty years, mainly by transportation services.

IV. Authority to issue their own First Mortgage Bonds to the same amount, having the preferred lien—superior to that of the Government.

V. It receives, in addition, donations and subsidies from the State and Cities of California, amounting to more than $3,000,000 IN GOLD;

Or an aggregate of Cash Resources for construction of **more than sixty millions upon 725 miles,** independent of the ten millions of acres of public lands, and further subscriptions to the Capital Stock. The early completion of the enterprise is therefore beyond all doubt.

This Company have already carried their road successfully across the Sierra Nevada Mountains, and are rapidly extending the track across the Salt Lake Plains, and have already a valuable way-traffic thereon. Besides a mileage upon all through business, this road, having the best lands for settlement, the most productive mines, the nearest markets, and being exempt from competition, will always command large revenues. The net earnings upon the completed portions are more than double the total annual interest liabilities to be assumed thereupon.

The undersigned offer for sale, and recommend to investors, the

FIRST MORTGAGE 30-YEAR GOLD BONDS

OF THE

Central Pacific Railroad Company,

Bearing six per cent. per annum interest, both principal and interest payable in

"UNITED STATES GOLD COIN."

These Bonds are the first lien upon one of the most productive and valuable railroad lines in the world—a line which will be finished within twelve months, and which is already earning, after paying operating expenses, more than twice the annual charge of its Bonded Debt. They are already widely known and esteemed in this country and Europe, and it is believed the remainder of the Loan will speedily be taken.

A limited amount will be disposed of at

103 Per Cent., and Accrued Interest, in Currency.

The Bonds are of $1,000 each, with semi-annual gold coupons attached, payable in July and January.

☞ The Company reserve the right to advance the price at any time; but all orders actually *in transitu* at the time of any such advance will be filled at present price. At this time they pay more than 8 per cent. upon the investment, and have, from National and State laws, guarantees superior to any other corporate securities now offered.

We receive all classes of Government Bonds at their full market rates, in exchange for the Central Pacific Railroad Bonds, thus enabling the holders to realize from 5 TO 10 PER CENT. PROFIT, and keep the principal of their investment equally secure.

Orders and Inquiries will receive prompt attention. Information, Descriptive Pamphlets, etc., giving a full account of the Organization, Progress, Business and Prospects of the Enterprise furnished on application. Bonds sent by return Express at our cost.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, September 21, 1868.

The gold market opened strong early this morning at 144⅜, but after 3 P. M. the market became weak on account of the large amount of exchange pressed on the market, and the latest sales were at 143⅝, with a further declining tendency. The main support during the past week was from the covering of short sales, and the pressure to-day to sell was increased by a powerful clique of bears in stocks and governments, who wished to arrest the rising tendency of the stock and bond market by selling a large amount of gold on the bull clique.

Governments were firmer, but the sales are trifling; but few large dealers are buyers, and with the decline in gold, the governments will have to follow.

Stocks, against the expectations of the bulls, and petit speculators did not rise to-day. The market on Saturday was a fair indication which way the market was likely to go. So far the bear clique has suffered but little, and they are likely to succeed in keeping the stocks in the hands of those who thought they could force the market considerably higher.

Express stocks are firm from the increased business now going.

Money is very easy. Business is still dull.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, September, 21, 1868.

The general markets are quiet and devoid of anything that is new or important. We can report a steady local demand for most of the leading commodities but in the absence of anything like a speculative feeling, round lot operations are not of frequent occurrence.

APPLES—Steady with regular sales at $3 to $4 per bbl.

POTATOES—Dull but unchanged at $105 $1,10 per bushel and $3,25 to $3,50 per bbl. Sweets quoted at $6 for Baltimores and $6,50 for Jerseys.

BUTTER—Is quiet and unchanged at 38 to 40 for good to prime.

EGGS—Sales of fresh packed at 23 and receipts light.

CHEESE—Is unchanged at 15 to 16c for Western Reserve and Hamburgh; 17 to 18c for Factory and Goshen, and 20c for Sweitzer.

SEEDS—Timothy Seed is in good supply but unchanged at $3,50 to $3,75. Flax Seed is in demand at $2,45 to $2,50. Clover Seed is nominal at $7,75 to $8.

SALT—Is dull and unchanged at $1,75 to the trade, and $1,90 to $2, in a small way.

LARD OIL—Is quiet and unchanged at $1,20 for No. 2, and $1,50 for No. 1.

PROVISIONS—Bacon is quiet and unchanged at 14 cts, for Shoulders; 16½ for Ribbed and 18 to 18¼ for Clear Sides, and 21 to 21¾ for Sugar Cured Hams. Lard is unchanged at 20 in tierces, and 22 in kegs. Mess Pork, $30,50 to $31.

GRAIN—Wheat is quiet and unchanged; the mills continue to pay $2,05 to $2,10, for Red, and 3 to 5 cents higher for White. Corn is dull but unchanged, with sales of mixed at $1,14 to $1,15, and $1,16 to $1,17 for prime Yellow. Oats steady at 65 to 66c, on track and in elevator, and 68 to 70c for small lots in store. Rye—sales reported at $1,40 to $1,43. Barley, $1,90 to $2 for prime to choice.

HAY—Is firm but unchanged. Arrivals light.

ONIONS—Sales in a regular way at $3,75 to $4 per bbl.

MILL FEED—Is dull but unchanged. The mills continue to quote at $1,10 for Bran; $1,30 for Shipstuffs, and $2 for Middlings.

WHISKY—Is quiet but steady and unchanged; we continue to quote common rectified per gallon $1,25; half rye and half corn per gallon $1,75; old Monongahela rye, two years old, per gallon $2,25; old Monongahela rye, three years old, per gallon, $3,50; highwines per gallon $1,35.

FLOUR—Is dull, with a drooping tendency. Spring Wheat brands may be quoted at $9,50 to $10 for choice, and $9 to $9,25 for Medium. The mills continue to quote Extra Family at $10,50 in bbls, and $10,20 in sacks; Double Extra at $11 in bbls, and $10,70, in sacks. Rye Flour, $8,75.

CRANBERRIES—Sales of eastern at $20 to $24.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, September 21, 1868.

CRUDE.

The Crude market was exceedingly dull to-day, but a single sale reported, 80 bbls, on spot, at 11c, bbls returned. There was a firmer feeling, however, and holders generally are endeavoring to establish an advance. Spot oil was quoted at 11¼ to 11½c—one party assured us that he had an offer of 11¾c, which he refused. The principal cause for this firmness lies in the fact that the Refined market is much firmer for early deliveries, and the one always sympathizes with the other. Late on Saturday there wrs a sale of 500 barrels for October at 11c.

REFINED.

The Refined market was considerably excited to-day, especially for September and October deliveries, with sales of nine thousand five hundred barrels reported. The present "flurry" is owing mainly to rumors of an expected "corner" between now and November 1st, and, we presume, that the buyers generally are parties who have sold "short," and are taking the precautionary "measures" to prevent themselves from being "cornered." The sales reported were: 500 September at 30c; 1,000 each half October at 30c; 1,000 September at 30c; 1,000 last half October at 30c; 1,000 do at 29¾c; 500 do at 30c; 1,000 September at 30¼c; 1,000 October at 30½c; 500 September at 30c, and 500 each September and October at 30½c.

FARM, GARDEN AND HOUSEHOLD.

How a Farmer may Lose Money.

By not taking a good home paper.

Keeping no account of home operations.

Paying no attention to the good maxim, "A stitch in time saves nine," in regard to the sowing of grain and planting of seed at the proper time.

Leaving reapers, plows, cultivators, etc., uncovered from the rain and heat of the sun. More money is lost this way than most people are willing to believe.

Permitting broken implements to be scattered over the farm until they are irreparable. By repairing broken implements at the proper time many dollars may be saved, a proof of the assertion that "time is money."

Attending the auction sales and purchasing all kinds of trumpery, because in the words of the vender, the articles are "very cheap."

Allowing fences to remain unrepaired until strange cattle are found grazing in the meadow, grain fields, or bruising the fruit trees.

Disbelieving the principal of a rotation of crops, before making a single experiment.

Planting fruit trees with the expection of having fruit, without giving the trees half the attention required to make them profitable.

Practicing economy by depriving stock of proper shelter during winter, and giving them unsound food, such as half rotten and mouldy hay and fodder.

Keeping an innumerable tribe of rats on the premises, and two or three lazy dogs that eat up more in a month than they are worth in a whole life-time.

And, lastly, he loses by not reading the advertisements of those who patronize the printer, they being invariably the most enterprising and liberal houses to deal with, when he goes to town.

GRAPES IN TREES.

For some months past an article relating to raising grapes on elms has been going the rounds of the press. The method is entirely at variance with the approved plans recommended by the modern writers of grape books. In confirmation of the theory advanced in favor of raising grapes in this way, we give some account of our own experience. Some years ago we had an Isabella grape-vine that ran up into a tall plum tree, which stood in an angle of our house, with a north-east exposure, and in such a position that it did not have more than three or four hours of morning sun. Yet the fruit on this vine—a variety that did not ripen well in other localities—never failed to ripen most perfectly, though few bunches of the fruit ever saw the sun; for the foliage of the tree was quite dense. Some years later we planted a grape-vine beside a wild cherry tree, and allowed it to run rampant through and over the tree. It has never failed, since it first produced fruit, to give perfectly ripe clusters, though it has received no care beyond a limited supply of old, well-rotted manure. From this vine we have yearly sold the grapes for a good sum, and there is every prospect that it will be good for many years to come; whereas, within a few feet, the new and approved sorts, cultivated on the new and approved principles, were nearly or quite a failure the past year, and, in years before, they never have done so well as the vine on the tree. In Italy, it is said, they train their vines in trees, and find it to be an economical arrangement. There is another great advantage to be derived from this training in trees, or rather allowing the vine to run into trees—they are not exposed, nor do they suffer one-tenth part so much from blight, and mildew of leaf, or rot of fruit, as the vines standing in the vineyard trained to posts or trellises. It is more natural for the vine; for, go where we will in the forests, we find grape-vines pushing their way even to the very tops of the tallest trees, and spreading themselves out among the branches where they can mature their purple clusters. Again: we find them clambering over fences and bushes by the roadside, delighting the traveller by their fragrance while in blossom, and pleasing the eye and the taste of those who relish them when ripe. This plan will be objected to, because it injures, and in time destroys the tree. We are not prepared to advise the planting of trees for the purpose, or, if any, not fruit trees; but will simply advise those having trees that they do not value very highly, and are willing to devote to raising grapes, to plant a vine or vines beside them, and manure well, and they will be pleased with the results.—*American Journal of Horticulture.*

HOW TO MAKE FIVE GALLONS OF GRAPE WINE.

A correspondent of the Germantown *Telegraph* says the following recipe produces excellent wine: Express the juice from twenty pounds of grapes and rinse the pulp and skins in as much water as will cover them, mash them and strain through a coarse cloth, add this to the juice and put in two pounds of brown sugar to each gallon; when the sugar is dissolved, pour the whole into a keg, having the bung open, and let it stand where the temperature will be about 70 degrees, until *fermentation cease*; then bung tight, and let it rest for a month to settle, when it should be drawn off quietly, the keg well washed, and the wine returned to it, adding one pound good raisins—and if the wine does not seem sweet enough, two pounds sugar may be added to the whole. The necessity of doing this depends upon the kind and quality of the grapes. The wine should remain until the keg is wanted the next season, when it may be bottled for use.

THE KELLEY'S ISLAND GRAPE CROP.

The grape crop of Kelley's Island, Lake Erie, or as some know it, Cunningham's Island, will not equal this year the yield of last year, when there were sold from it 1,200 tons of grapes and 200,000 gallons of wine. The crop, however, will be good this season. On Big and Little Ross Islands, and on Johnson's and Put in Bay Islands, the crop will also prove fair. The grapes from these islands are considered the finest that grow in this country. On the islands they are worth wholesale from 4 to 5½c per pound.

These vinyards have the advantage over most others in Ohio, from the fact that the frost visits them two weeks later in the Spring and leaves them two weeks earlier in the Fall The best of these Catawba grapes are bought up by the Kelley Island Wine Company, for the purpose of making wine.

TO REMOVE THE SKIN FROM PEACHES.

Every one knows that there is a great loss of pulp in paring peaches with a knife; to obviate which an exchange suggests the following method of treating them: Make lye as strong as possible of wood ashes and soft water. Fill a kettle with the lye, and when boiling rapidly, drop in twelve or eighteen peaches, and take out again almost immediately, and immerse them in a pail of cold water. Take one in your hand, and you perceive that the rind will slip off entirely, leaving a round, beautiful yellow ball; throw immediately into another pail of pure water, and so proceed till all are done. This process will not injure the flavor of the finest peach, and once tried, the old fashioned way of pealing with a knife will not be again adopted. If the lye is not strong enough put into the kettle two dipperfuls of clean wood ashes. This is an excellent way to rid small onions of their jackets preparatory to pickling them.

SALTING DOWN CUCUMBERS FOR PICKLES.

Leave half an inch of stem on cucumbers wash them in cold water, immediately pack with salt in alternate layers, salt next to the wood; one barrel of salt to five of cucumbers. Fill barrel full, putting salt on top, cut a wide board so as just to fit inside barrel, bore a half dozen half inch holes through, place it on pickles with a stone on, which should weigh at least twenty-five pounds, so as to keep the pickles always in brine. Take off all scum which rises. Keep the barrels in the shade, and in four weeks take off the stone and fill to the top, as they will settle some. Put more salt on, head them up, and they are ready for market. It is best to have two sizes of pickles. —*Country Gentleman.*

COOKING SWEET CORN.

That sweet corn may retain all its rich flavor and sweetness, it should be cooked in the following manner: Loosen the husks at the small end of the ear, and remove all the silk that can conveniently be got at. Then replace the husks, tying them with a string; put the ears into water that is boiling, being careful not to put so many in the kettle at a time as to essentially reduce the temperature of the water. It is a good thing to place a little white sugar on the corn when the husks are loosened. To those who raise their own corn, we would say, do not break off the ears till they are wanted for use.

BOILING FRUIT.

A writer in the *Gardner's Monthly*, in referring to the difficulty of using glass jars for putting up fruit, on account of breakage, says: "It is customary to put the glasses in cold water and gradually heat them up to near boiling point, when the heated fruit is put in and closed up. But with all my greatest care glasses often break. Now I get a wet towl, double it four or five times and set the jar in this while pouring in the warm fruit. I adopted this plan all the last season, and did not have a single glass crack. It seemed so unreasonable to cool them instead of warming them, that I was at first afraid to try it, and very reluctantly experimented with two. As these succeeded I did all that way last summer."

TOMATO KETCHUP.

Take one peck of tomatoes, one great spoonful of cloves, alspice, cinnamon and nutmeg each, half a large spoonful of black pepper, half a teaspoonful of cayenne, and a pint and a half of vinegar Stew the tomatoes and strain them, and then add the spice and vinegar. This will make three bottles.

BOX THE TUMBLING RODS.

A law was passed by the last Iowa Legislature, which provides that any person running a threshing machine, without boxing the tumbling rod, shall be liable to a fine of $50. It is also a part of the provisions of the law that machine owners cannot collect pay by legal process for threshing if the maching which did the work run with unboxed rods.

A NEW SEEDLING HOP

Has been grown in some parts of the East this year with excellent success, both in relation to the amount of yield and the quality of the product. It is known as "Palmeris Seedling." Was originated at Waterville, N. Y., and its chief distinctive quality is its early maturity. They are ready to pick the first of August, and by being ripe at this early period, it is thought they will escape the ravages of the hop aphis.

TO MAKE CITRON-MELLON PRESERVES.

Cut the melon in what form you please; place in a kettle with water enough to cover, and boil until soft, previously adding a piece of alum; when done put to drain, and then place in a jar with sugar, an alternate layer of each; a pound of sugar to a pound of lemon. When the sugar is dissolved, boil, adding lemon and ginger root to suit the taste.

A CORRESPONDENT of the *Horticulturist* says that he practices with success, growing peach trees in pots, and wintering them in the cellar. In the spring they are plunged in the earth to the tops of the pots.

ALL roots should have room. If standing thick, they should be thinned without mercy. Unless on newly cleared land they grow best in drills, for they can be cultivated.

FINE, well rotted manure, applied to the surface gives the wheat plant strength to go well through the winter, and it fits the ground for receiving clover seed early in spring.

THIRTY years ago a man in Massachusetts planted 30 acres with acorns, and the result is a fine oak forest, with trees from 12 to 18 inches in diameter. Of course, he who planted is still living.

NO MORE HANKERING FOR TOBACCO AFTER USING ORTON'S PREPARATION! RECOLLECT IT IS WARRANTED. BEWARE OF COUNTERFEITS!

RECOMMENDATIONS.

The following are a few selected from the multitude of recommendations in our possession:

[From W. P. Heald, Esq., Bangor, Me.]

BANGOR, Me., April 24, 1868.

I hereby certify that I have used tobacco for thirty years past, and for the last fifteen years I have used two pounds per month. I have made attempts to leave off at different times. I have left off one year at a time, but always continued to hanker for it until I used Orton's Preparation, which has completely cured me of the appetite for tobacco. I would recommend all who are affected with this terrible habit to try the preparation, which will certainly cure it if the directions are followed.

W. P. HEALD.

[From E. W. Adkins, Knoxville, Tenn.]

KNOXVILLE, Tenn., August 5, 1867.

This is to certify that I had used tobacco to such an extent that my health had become greatly impaired, and my whole system deranged and broken down. In June, 1867, I purchased one box of Orton's Preparation, and after using it I found that I was completely cured. I have not had any hankering or desire for tobacco since using the preparation. I believe it to be all that it is recommended, and I would advise all who wish to quit the use of tobacco to try one box of Orton's Preparation.

E. W. ADKINS.

[From John Morrill, Bangor, Me.

BANGOR, Me., March 24, 1868.

This is to certify that I have used tobacco for eighteen years; have tried many times to leave off, but have suffered so much from a dizziness in my head, and gnawing at my stomach, that I have soon given up the trial. A short time since a friend induced me to try Orton's Preparation (sold by you.) I have done so, and am completely cured. I did not in the least hanker after tobacco, either to smoke or chew, after I began to use the Preparation.

Paved.—The paving on Harmony street, Birmingham, is completed from the river to Carson street, and the workmen have commenced paving above Carson street.

Postponed.—The presentation of a set of colors to the Second Ward Club will take place this evening, at Wilkins Hall, at half past seven o'clock, the ceremony being postponed last evening on account of a failure to procure music.

The Torchlight Procession—Special Train from Steubenville.—A special train will leave Steubenville for Pittsburgh, on Wednesday, at two o'clock p. m., arriving at 5 o'clock p. m., in ample time to allow passengers to witness the grand torchlight procession. Excursion tickets will be issued, good for three days.

Cross Suits.—Mary Cunningham made information before Alderman Donaldson, yesterday, charging Ellen Carral with keeping a disorderly bawdy house. She had been absent from the office but a few moments when Ellen came in and made information charging her with disorderly conduct. Warrants were issued.

Well-known Citizen Dead.—We regret to announce the death of Francis Cluley, Jr., a well-known and highly respected citizen, brother of Sheriff Cluley. He had been ill for some weeks with congestion of the lungs, and expired at his residence on Fulton street Monday afternoon. His funeral will take place to-morrow afternoon at two o'clock.

Fatal Accident.—Philip Damslyer, a coal miner, was killed in Neal's coal mines, near McKeesport, on the Monongahela river, by being crushed underneath a mass of slate which fell upon him while at work. The deceased was about forty-five years of age and leaves a wife and family.

Railroad Bridge Burned.—The railroad briage of the Pittsburgh, Cincinnati and St. Louis Railway Company, at Smithfield, was burned on Saturday night. The fire originated from sparks from an engine. A company of bridge builders were put to work immediately, and a temporary structure has been erected, so that no delay to the trains will be occasioned.

Republican Rally in Harrison Township.—A large and spirited Republican meeting was held at Natrona on Saturday evening, September 17th. The Harrison Township Grant Club was out in full force with torches and banners. The meeting was addressed in English by Hon. George Wilson and Thomas Ewing, Esq., and in German by H. P. Mueller, Esq.

Assault and Battery.—Geo. Falmer made information before the Mayor yesterday charging Daniel Ragan and wife with assault and battery. The parties reside at Four Mile Run, where the difficulty occurred. The prosecutor alleges that the accused attacked and beat him in a shameful manner, and threw stones at him, several of which struck him. A warrant was issued for the arrest of the Ragans.

Unprovoked Assault.—James Martin made information, before Mayor Drum, yesterday, charging George Blume with assault and battery. He alleges that on Saturday evening he went into a bar in Allegheny, and just as he was entering the door he was attacked by the accused, who struck him on the head with an iron poker, inflicting a severe and ugly scalp wound. Blume was arrested and after a hearing was held to bail in the sum of $500 to answer at Court.

A Strange Case.—An information was made by Mary Strange, charging James Clare with disorderly conduct. The parties are colored, and it is alleged by the prosecutrix that as she was returning from church Sunday evening the accused came up to her on the street, and throwing his arm around her attempted to kiss her. She declares that James is a naughty fellow, or he would not attempt to kiss a *strange* girl on the street. A warrant was issued for the man of *strange* tastes.

J. B. Lippincott & Co., of Philadelphia, have sent us a neat magazine looking pamphlet of about 150 pages, called "Short stories for Spare Hours," which are selected from those published in *Lippencott's Magazine*. They have nearly all a ready received the sanction of the critics, as first rate tales and are equal to similar literature published in any other magazine. We have also received from the same firm the October number of their well known excellent monthly.

Flag Presentation.—The Grant Club of the Eleventh ward was presented with a beautiful silk flag last evening, the gift of three young ladies of the ward. Dr. A. G. McCandless presented the flag on behalf of the ladies, and Capt. Ewing responded in a neat and appropriate address. The Seventh and Eighth Ward Club was present, having over one hundred men in the ranks. After the ceremonies were concluded both Clubs, headed by a martial band, marched to the meeting at Minersville, making a fine appearance.

Who Stole the Watch?

Annie Hall, a colored woman, made information before the Mayor, yesterday, charging Annie Skinner, also colored, with the larceny of a watch and two chains, valued at $70. At the same time and place she made information charging George Harris, colored, with receiving stolen goods. It appears that the women occupy a tenement house jointly in Kayton's alley, in the Eleventh ward, each having three distinct and separate departments. One day last week the prosecutrix having been subpoened as a witness had to attend Court, and locking up her apartments left the house, and she alleges left her watch locked up in her room. When she returned she found that her room had been broken open and the watch and chains stolen. She states that when she left the house the accused was there, and that when she returned the house was deserted. She since learned that Annie Skinner was living in Allegheny City with Harris, and having reason to believe that he had possession of the watch made information as above. Harris was arrested and held for a hearing, but the alleged larcenist is still at large.

LOCAL POLITICS.

Meeting in Sixth Ward.

One of the largest ward meetings we have attended during the campaign was held at the corner of McGee street and Pennsylvania avenue, in the Sixth ward, last evening. The Sixth Ward Tanner Club and the Seventh and Eighth Grant and Colfax Club, fully equipped, with torches, etc., each headed by a band of music, were in attendance. The street in front of the speakers' stand, which was tastefully decorated with flags and Chinese lanterns, was a dense mass of people for a full square. The meeting was called to order by Mr. John R. Wilson, who proposed the following officers:

President—Jno. A. Sargeant.
Vice Presidents—W. N. Wagstaff, C. C. Kuhn, Ed. Presser, J. B. Bennett, W. N. Everson, Louis Kern, Bartley Preston.
Secretaries—John N. Everson, N. G. Kunkle, W. J. Flinn and reporters of the press.

The officers were unanimously elected, after which the audience was favored with some excellent music by Julius Moore's brass band, at the conclusion of which the Chairman introduced to the meeeing

GEN. J. BOWMAN SWEITZER.

General Sweitzer said he had come to address a ward meeting and was delighted to see as large a crowd as if it was a convention. He was pleased to see that they took so much interest in the present contest, which is one of incalculable importance, one which is to deeide for years the weal or woe of our country. There is but one issue in the present campaign, and it is, shall we have peace or shall we have war. Democrats have thrown in a plank about greenbacks, but it is not a drop in the ocean, not of the slightest importance in comparison with the great issue. The General had not been an abolitionist, had as an officer of the law supported and enforced in by gone times a law, which was repugnant to him, because it was a law, and the reconstruction laws had been once as disagreeable to him, but they were laws and every loyal man must support them.

The Southeners are themselves responsible for the present condition of the South. They had, at one time after the war, an opportunity to accept the XIVth amendment and come in with all the rest of the States together, but they refused. They inaugurated the one-man power, and seek to get back all their old power, and more too in Congress, and to rule the black and white races as before. We oppose Seymour to prevent this great calamity. Who have combined to effect this and raise Seymour, or whoever their candidate might be, to be dictator, law-maker and Executive in one? The soldiers present know. They went out to fight against traitors for the preservation of the country and the flag, and their old enemies have united with the peace Democrats to effect their original object.

General Sweitzer believed at one time that McClellan was a great man, but he believed that Grant is a greater. He had stuck to his old friends of the Democratic party as long as he could, but could do so no longer, for here when we have another crisis instead of nominating McClellan, or Hancock, or Farragut, they have chosen a Peace Democrat and gotten up a greenback dodge, refused to endorse the soldiers, and nominated a man who did not believe it was right to fight for the flag, and had said that the Confederate rebel constitution was better than our own and we could not do better than adopt it. Gen Sweitzer spoke strongly for some time on the reconstruction question and finished with an eloquent eulogy which he styled a little talk about General Grant.

J. M. KIRKPATRICK, ESQ.

At the conclusion of Gen. Sweitzer's remarks the band played "The Star Spangled Banner," after which J. M. Kirkpatrick was introduced and addressed the meeting in his usual happy style.

He believed, as Frank Blair had said, that there was but one issue in this canvass, and that was the reconstruction measures of Congress. The question was, "whether loyalty should govern what loyalty had preserved," or should the Government be turned over to those who had foully plotted its destruction. He said he did not stoop to make an argument. His cause needed no argument to sustain it; he would talk on the offensive rather than the defensive. He then turned his attention to local matters and said he did not like to descend so low as to talk about Burt and Foster, but supposed it was necessary. When he "started out to hunt deer he did not like to shoot at skunk." He then appealed to the working men present to know if they would support such men, and asked what claims they had upon the laboring classes. He closed his remarks with an eloquent peroration, urging upon the Republicans the necessity of vigilance.

D. H. LYMAN, ESQ.

D. H. Lyman, Esq., of the GAZETTE was then introduced, and in a brief address presented the issues in the present contest. He believed in Democracy, when construed in its proper sense; but he was by no means a modern Democrat. In the early days of Democracy, it was held to be in opposition to aristocracy, but now Democracy was nothing nor than less than aristocracy. The speaker briefly referred to the reconstruction policy of Congress, and said that although the Democrats had inserted a slippery financial plank in the platform, that the reconstruction of the rebel States was the terminus. He held that but for the treason of Andrew Johnson, which inspired the Southern Democrats with a hope of regaining the "Lost Cause," the country would have long ere this have been restored to peace and quietness and would have been enjoying a degree of prosperity far greater than it had ever yet attained.

At the conclusion of Mr. Lyman's remarks the meeting adjourned with three times three for Grant and Colfax.

Still They Come.

Organizations for the grand demonstration on the evening of the 23d and 24th inst. are rapidly forming and completing their arrangements. A meeting of the members of Knapp's, Nevins' and Hampton's batteries was held last evening, at City Hall, and was organized by calling Major John M. Knapp to the chair.

On motion, it was resolved to organize two batteries of artillery to participate in the demonstration on the 24th, and the torchlight procession on the evening of the 23d inst.

KNAPP'S BATTERY.

The members of Knapp's battery held an election when the following officers were elected:

Captain—Wm. R. Stokes.
Lieutenants—Geo. G. Walker, Isaac Jones and Jas. P. Stewart.
Sergeants—1st, Wm. B. Rowland; 2d, David Nichol; 3d, Miles Stetler; 4th, Thomas Jones; 5th, Preston B. Schriver.

HAMPTON'S BATTERY.

Captain—Robt. Paul.
Lieutenants—(None elected.)

Both organizations will meet this Tuesday evening at 7½ o'clock, at City Hall, to receive capes, belts, blouses, &c.

The organization request all the members of Nevin's Battery to join with them.

Braddock's Field Tanners' Club.

This Club, organized in Braddock's Field, now numbers over one hundred members, with the following officers: Captain, M. G. Corry; First Lieutenant, Geo. Martin; Second Lieutenant, C. C. Fawcett; Sergeants, S. T. Guthrie, L. C. Frity, J. J. Stephenson, Louis F. Vandergrift, George B. Frity; Corporals, Wm. Berry, George Giles, James Fawcett, Samuel Soles, Robert McCauley, Geo. W. Soles, Robert Holdin, J. N. Baldridge.

The Club now numbers one hundred and one, and is nightly adding to its number. This is a remarkable result in a borough which last year gave the Democratic ticket seventy-one majority, and if it is a fair evidence of the change of sentiment in Allegheny county we may expect in November to roll up the good old fashioned ten thousand majority. There is no district in which more active work is being done than in Braddocks. The young men are renewing the enthusiasm of 1860.

Mass Meeting in Allegheny—Speeches by Messrs. Penniman, Howard and Campbell.

The Republicans of Allegheny assembled in large numbers last evening in front of their Headqnarters in the Diamond square, opposite City Hall, to join in another grand rally for Grant and Colfax.

The music on the occasion was furnished by the Germania Brass Band.

At half past seven o'clock an organization was effected with the following officers:

President—Henderson E. Davis.
Vice President—Dr. Campbell.

Addresses were made by Messrs. F. B. Penniman, Thomas Howard and Dr. Campbell, which were received with enthusiastic applause. The meeting adjourned at ten o'clock with three rousing cheers for Grant and Colfax.

Meeting at Minersville.

The Republicans of the Thirteenth ward and vicinity held a mass meeting at Minersville last evening. A stand had been erected near the school house for the accommodation of the speakers, around which over a thousand persons were assembled. The meeting was organized by calling Isaiah Dickey, Esq., to the Chair, and appointing a number of Vice-Presidents and Secretaries.

Major A. M. Brown was then introduced to the meeting and made an able address.

After the meeting was organized, their numbers were swelled by the arrival of the Grant Clubs from the Seventh, Eighth and Eleventh wards, equipped with torches, &c. Many of the houses along Centre Avenue and in the vicinity of the meeting were brilliantly illuminated.

The meeting was a grand success in every respect.

"Grant Hussars."

Pursuant to notice, a meeting of the officers of this organization was held at headquarters, No. 91 Grant street, last evening, Vice President McClung presiding. A proposition to wear white gloves on parade was overruled, as also one to wear flags on the bridles. An election for field officers was then held, and the following gentlemen elected unanimously; Colonel, William Blakeley; Lieut. Colonel, T. K. McClung; First Major, S. J. McFarren, Captain Co. A; Second Major, Alex. McCallum; Adjutant, W. R. Johnston, Lieut. Co. B; Quartermaster, J. B. Johnston, Lieut. Co. A. After which the meeting adjourned to prepare for the Torchlight procession of the 23d and Convention of 24th inst.

Eighteenth Ward Republican Nominations.

Select Council—David Holmes (2 yrs.), David Kirk, (1 yr.)
Common Council—John M'Masters, J. B. Bell.

Constable—Jno. Moreland.
Judge of Elections—Julius Livingston.
Inspector of Elections—John W. Williams.
Assessor—John M'Masters.
Assistant Assessors—David Jones, Henry Williams.

The nominations for Council are very strong and will, regardless of party, receive a very handsome if not unanimous vote. They fully represent the constituency of the ward. The other nominations are also very good, and upon the whole the ticket is worthy generous support.

Death of a Pittsburgher.

The sad intelligence of the death of Capt. John Dalgleish which was received in this city yesterday morning, and was the cause of the most profound regret on the part of his many friends and acquaintances. Lieut. William Dalgleish received a telegram from Alliance yesterday morning, stating that his brother had committed suicide the night previous, in the Howard House. We are without further particulars concerning the sad affair. The deceased had been engaged in the capacity of travelling agent for a tobacco house in this city and was on his way home from a tour through the West. Capt. Dalgleish was extensively known as a brave and faithful soldier, having served through the war in the Sickles' brigade with honor to himself, rising from the ranks to the position of captain. The remains will probably arrive in the city this morning, Lieut. Dalgleish having left for Alliance yesterday morning for the purpose of bringing them home.

Accommodations for Strangers.

The Republicans of the two cities are requested to hang out the latch-string on the 23d and 24th. We have received information that very large numbers of Republicans from surrounding counties will be here on those days, and all families who can afford hospitality to them are respectfully solicited to do so, and to leave word *at once*, at City Hall, Republican Headquarters, how many they can take, either for eating or sleeping.

There will be urgent necessity, also, that those marching in the procession should be supplied with water on the march. Will not the kind-hearted Republicans along the route make arrangements immediately to provide for this want?

By order of the Committee of Arrangements,
HUGH S. FLEMING,
Chairman.

Alleged Larceny.

Michael Herbstoe made information yesterday before Alderman Strain against one Gangwisch, charging him with larceny. Gangwisch keeps a saloon on Penn street, and the defendant alleges that he was in the saloon a night or two ago, having at the time four hundred dollars, wrapped in alternate folds of a piece of a Boston newspaper. There were other parties in the saloon at the time, who went away in a short time, followed by Herbstoe, who went into another saloon, and while there discovered that his money was gone. He immediately went back to Gangwisch's saloon and made inquiries, but nobody knew anything about it. Just as he was going away he saw the piece of paper in which the money had been wrapped, lying on the counter, and, upon examination, found one hundred dollars in it, leaving three hundred dollars to be accounted for, which he charges Gangwisch with having stolen. He also makes another charge against Gangwisch for larceny as bailee. He alleges that some time ago he shipped to the accused two trunks and a carpet bag, containing baggage to the amount of one hundred and fifty dollars. He states that he paid Gangwisch thirty dollars for his trouble in taking care of the articles. Shortly after he took sick and went to the hospital, leaving the articles in the possession of the accused, who now refuses to give them up until he has received thirteen dollars additional for his trouble. Warrants were issued on both charges.

Larceny.

An information was made before Alderman Strain, yesterday, charging Charles Gangwich, proprietor of a saloon on Penn street, with larceny, and also with larceny by bailee. The prosecutor, Michael Herbstoe, alleges that a night or two ago he was at Gangwich's saloon and had $400 in his pocket folded up in the alternate fold of a piece of a Boston newspaper. He went to another saloon and there missed his money. Thinking he must have lost it at the other place he went back, and made inquiries without avail. As he was leaving he espied his piece of Boston newspaper lying on the counter, and picking it up found one hundred dollars of his money still lying in one of the folds of the paper, where it had been overlooked by whoever took the rest of it. Therefore he charges Gangwich with the larceny of $300. It is also alleged that the same defendant has now in his possession and refuses to give up two trunks and a carpet sack belonging to affiant, which baggage is worth $150. It is stated that the affiant had the articles sent by express to Gangwich, and paid him thirty dollars for his trouble in the matter. Shortly after they were received he was taken sick and went to a hospital leaving the articles still in his possession. When he went to claim his baggage, Gangwich, it is alleged, refused to give them up without receiving thirteen dollars extra. Warrants were issued,

Attempted Outrage.

On Thursday last Mrs. Daughtery, wife of John Daugherty, was assaulted by a villain who attempted to outrage her person, and was only foiled in his hellish purpose by the terrible resistance by the lady. At the time stated she left her home with the intent on of visiting her father, who resides on the hill above Temperanceville. She crosed the river to Temperanceville, and while ascending the hill above that town noticed a man following closely behind her. Just as she reached a secluded portion of the road the villian quickened his steps and as soon as he reached her he seized her and threw her to the ground. He place his hands over her mouth, but she struggled so violently that he was compelled to loose his grasp, and after receiving numerous scratches, and several bites, he relinquished his object and ran away. Mrs. D's cries attracted assistance, but the villain had made good his escape.

Mr. Daugherty made information before Mayor Drum yesterday, charging an unknown man with the offence named. The Allegheny police visited Temperanceville on Saturday afternoon and arrested a man on suspicion of having been the perpetrator of the outrage. Mrs. D., however, was unable to identify the accused, and he was discharged.

United States District Court.

(Before Judge McCandless.)

In the case of United States vs. Paul Bloss, indicted for illicit distilling, the jury found a verdict of not guilty, and defendant was discharged.

The only case on the criminal docket undisposed of was continued until the October term.

The Court announced that the argument on the motion for a new trial in the case of the United States vs. The Vinegar Manufactory and other property owned by A. Ballou would be heard this morning at ten o'clock. After that case has been heard, the bankruptcy list will be taken up.

In the bankruptcy branch petitions for final discharge were filed as follows: N. L. Dike, of Potter county; Anson Wight, of Williamsport, Lycoming county; Joseph C. Holmes, of Lycoming county.

Petitions for adjudication in bankruptcy were filed by Asa Downs, of Potter county; Robert Hayes, Northumberland county; Oliver Adams, Allegheny county.

Felonious Assault.

Samuel Arthur made information before Alderman Humbert, yesterday, charging Peter Baker with felonious assault. Mr. Arthur was part owner of a store on Market street, and recently disposed of his interest to Baker. The sale was conducted in a manner which left a balance in Baker's hands, and for the purpose of collecting this the prosecutor visited him on Saturday. During the conference they quarreled, and Baker raised an iron bar with which, it is alleged, he struck the prosecutor three times, but he managed to ward the blows so successfully that he escaped being very seriously hurt. His hand, however, was painfully wounded, and immediately after the occurrence he entered suit as stated above. Baker was arrested and gave bail in the sum of $1,000 for trial.

Tobacco and Cigars.—Mr. John Sherer, so well and so favorably known, late of Federal street, Allegheny, has purchased the first-class and popular tobacco, snuff and cigar store of Mr. Daniel Haggerty, No. 87 Fifth street, which he will reopen to-day. The store has been refitted in an elegant manner, and an entire new stock of all brands of smoking and chewing tobaccos, snuffs, cigars of the best quality, meerschaum pipes, tubes, &c., has been opened at very reasonable prices. Call in and look through the stock.

Grand Sale.—The sale of boots, shoes and gaiters at the popular merchandize headquarters of Smithson & Co., Nos. 55 and 57 Fifth Avenue, still continues, and our readers are advised to call there for bargains. The stock has been selected with much care, and is as full and varied as any one could wish. Give the store a call for unusual bargains, either wholesale or retail.

Great Bargains.—At the extensive wholesale and retail warerooms of Messrs. Smithson & Co., Nos. 55 and 57 Fifth avenue, will be found an endless variety of new goods in the way of boots, shoes and gaiters. Wholesale and retail patrons will consult their own interest by calling and examining the stock, as they can purchase nowhere else to as good advantage.

Small Profits.

The system of small profits and large sales pursued at the great first-class hat, cap and ladies fur house of William Fleming, No. 139 Wood street, has proven highly successful in building up a very large trade, which is constantly on the increase. The ladies' fur business has become a very important branch of the trade of the city, and to its development no house in the city has contributed so much. Fleming now sells more furs for ladies wear, embracing all varieties, styles and qualities, than all other Pittsburgh establishments combined. The wonderfully low prices at which ladies' furs have been sold, has, no doubt, been the means of securing the large patronage which this extensive and popular establishment now enjoys.

Readers will bear in mind that at Fleming's they will find a larger and better stock of fine grade of furs than elsewhere west of the mountains, and that they can purchase from 15 to 25 per cent. less at this house than at any cotemporary establishment. Thus patrons are afforded not only the best selection, but likewise the greatest bargains. Those who contemplate purchasing anything in this line should call at Fleming's headquarters for such goods, examine stock and compare prices and judge for themselves. Purchasers should not delay, as it is a well-known fact that as the season advances and the stocks run down, prices materially advance. Don't forget the place, 139 Wood street.

"To All Seeking Homes."

We have frequently called the attention of our readers to a valuable work issued by the reliable Real Estate Agents, Croft & Phillips, entitled the "PITTSBURGH REAL ESTATE REGISTER." The very large amount of property that is offered for sale by this firm renders it comparatively easy for them to suit even the most fastidious in a home. The amount represented in the "REGISTER" alone is over half a million dollars, consisting of Farms, Mills, Stores, Hotels, Tanneries, Southern and Western Lands, Coal and Mineral Lands, city and suburban sites, with full descriptions, locations, prices and terms of sale. The descriptions given of the different properties in the "REGISTER" were written (with but few exceptions) after a careful examination of the same by one or the other of the members of the firm. Therefore, persons visiting properties that they offer for sale will not be disappointed in the descriptions given. The very extensive circulation that the "REGISTER" now enjoys is due to the energy and ability of its publishers in making it a valuable work of reference for gratuitous destribution.

Persons desiring a copy of the "REGISTEE" can obtain one by calling at their office, No. 139 Fourth avenue, or it will be sent by mail, free, to any address. DON'T FAIL TO GET IT. It D&W

CAUTION!

TO BUYERS OF TEA

C. A. BOUCHER,

114 SMITHFIELD ST

OPPOSITE POST OFFICE.

Original Red Front Tea Warehouse

The undersigned would respectfully call the attention of buyers of Teas to the inconsistent and false statements made by the

BOCUS TEA COMPANIES

Of the present day. Men with scarcely sufficient knowledge of Tea to distinguish Black from Green are advertising themselves as the Great Tea Companies of the country, and claim to sell the best Teas at from 80c. to $1.25 per lb. More approbrious falsehood and misrepresentation was never published.

To prove the outrageous nature of such claims it is only necessary to refer to published reports of daily Auction Sales of Teas, by the cargo, in the great market of New York, at which fine Teas cannot be bought for less than from $1.50 to $2 per lb.

Another active means of fraud in Tea Stores is giving SHORT WEIGHT instead of

16 OUNCES FOR A POUND.

In this way many buyers are misled into the belief that they are purchasing goods at a reasonable cost, when, in fact, they are, by these means, decided into paying excessive prices.

The undersigned will give a

REWARD OF $50,

for each and every case of short weight of tea or other goods, as weighed on his tested scales.
